## PRODUCT FACT SHEET

### PRODUCT DESCRIPTION

#### Sub Duct Communications Conduit

CBK

Acu-Tech manufactures 32mm sub duct for segregating cables inside existing communications conduit. Sub duct is used to keep cables separated and organised as well as providing another layer of protection when multiple cables are being pulled through the pipe over a period of time.

It's flexibility and availability in 500m coiled lengths facilitates straightforward installation and reduces wastage, as less joints are required. With a minimal wall thickness of 2.1mm, our sub duct can also be easily cut if necessary.
